# AMPERES ZS-5602

# 6-ZONE SPEAKER SELECTOR UNINTERRUPTED

## INTRODUCTION

**ZS5602** shall be suitable for uninterrupted paging setup, i.e. when an announcement to a zone is made, other areas with BGM shall not be interrupted. This shall require two sets of amplifiers connected to the ZS5602, thus the system shall consist of two sources, one being BGM and the other as Paging.

Similarly to ZS5601 / ZS5121, paging zone can be remotely triggered and each zone shall have separate amp input - zone output terminals, thus making it flexible for amp-zone configuration.

## FEATURES

✓ Available in 6 zones for BGM and 6 for Paging with ALL CALL

✓ Expandable or link multiple units to form more zones

✓ Remote zone triggering port via external paging mic

✓ Emergency paging mic triggering port with dry contact for volume controller overriding application

✓ Aux DC output for selected paging zone

✓ Suitable for 3 or 4 wire system

## TECHNICAL SPECIFICATIONS

| | |
|---|---|
| Operating voltage | 24V DC ; 0.5A |
| Power consumption | 10W ; 0.42A at ALL CALL |
| Insertion loss | 0.5 dB max |
| Max load / channel | 400W at 100V line |
| Number of zones | 6 |
| Amplifier inputs | 6 BGM ; 6 Paging |
| Zone selection - BGM | Front panel switch |
| Zone selection - Paging | Front panel switch, remote |
| Indicators | Zone LED |
| Aux output voltage | 24V DC ; 3A max / zone |
| Dimension (WxHxD) | 482 x 44 x 180 mm |
| Weight | 2.2 kg |
